

**THE STEPPING
STONES GROUP**
Transforming Lives Together

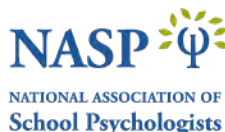

Evaluations, Direct and Indirect Services through Telepractice!

Telepractice is driven by the quality of therapy!

Our program is built on industry leading training and support for our amazing employees. Together, we deliver unmatched services to communities and school districts throughout the country.

To ensure continuity of care, all Stepping Stones Group team members are W-2 employees with benefits and retirement options to make sure they are fully committed to your school district; a stark difference than current industry standards of hiring 1099 subcontractors. Our employees go through a clinical interview to ensure they not only have the proper skill set, but understand the educational model, then we provide them with certified telepractice training, educational resources and ongoing support.

National Organizations
